

App Tutorial: Layout

Welcome to the app's tutorial page! Here you will learn about the main layout of the app and how to navigate around it. When you open the application, you are introduced to multiple choices:

Resume – Resumes to your last opened project. If you don't have one the button won't respond and it will have a gray colored text.

New project – Create a new custom project.

Open gallery – Open the gallery of all of your saved projects, and if you signed in you could also open the global gallery to open other people's shared projects.

Exit – Exit the application.

If you swipe right in the main menu or press on the 'hamburger menu' in the upper left corner you will have additional choices like:

Login – Login to your account. By logging in you will have the option to share your projects in the online gallery and open the projects of other people.

Register – create a new account.

Tutorial – open this current tutorial.

About – Read about me, the creator of this app.

Settings – Additional app settings, for more advanced usage.
